Re: Initial I-956F, Application for Approval of an Investment in a Commercial Enterprise
INF2260000696

On August 9, 2022, U.S. Immigration Fund-NJ, LLC ("the Regional Center") filed a Form I-956F to request an Initial I-956F, Application for Approval of an Investment in a Commercial Enterprise in accordance with section 203(b)(5)(F) of the Immigration and Nationality Act ("INA"). The Regional Center was initially approved for designation in the Regional Center Program ("the Program")¹ on May 29, 2013.

Specifically, the Form I-956F requests the following:

- Determination of EB-5 compliance for initial I-956F, Application for Approval of an Investment in a Commercial Enterprise.

¹ INA § 203(b)(5)(E) and its predecessor at Sec. 610 of the Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations Act of 1993, Pub. L. 102-395 (repealed by the EB-5 Reform and Integrity Act of 2022, Div. BB of the Consolidated Appropriations Act, 2022, Pub. L. No. 117-103).

Effective as of the date of this notice, and as discussed further below, USCIS approves the Regional Center's request.

I. Determination of EB-5 Compliance for an initial I-956F, Application for Approval of an Investment in a Commercial Enterprise

Through this Form I-956F and the documents submitted, the Regional Center requests determination of EB-5 compliance for an initial I-956F, Application for Approval of an Investment in a Commercial Enterprise. The Regional Center presented evidence asserting that 38 investors will invest \$30.4 million into Wave Spa Funding 100, LLC – the new commercial enterprise (NCE). The NCE will invest in an equity interest in PV Motel JV LLC, the job creating entity (JCE). The JCE intends to build a hotel and spa at a total cost of \$102.76 million. The project site is 100 Ocean Ave. N., Long Branch, NJ 07740.

After review of the documents submitted in connection with this request, USCIS has determined that the Regional Center has demonstrated that the initial I-956F, Application for Approval of an Investment in a Commercial Enterprise complies with EB-5 requirements.

The Regional Center asserts construction activity will longer than 2 years. Therefore, USCIS approves the Form I-956F based on evidence submitted indicating that the investment from EB-5 petitioners will create sufficient direct jobs and indirect/induced jobs in accordance with INA § 203(b)(5)(E)(iv)(I) to support 38 EB-5 investors.²

USCIS also approves the Regional Center's assertion that the JCE is principally doing business within a high unemployment area.

The designation of the proposed area as a high unemployment area is valid until two years from the filing date of this I-956F.³

The approval of an I-956F shall be binding for purposes of the adjudication of subsequent Forms I-526E, Immigrant Petition by Regional Center Investor, filed by immigrants investing in the same offering

² INA § 203(b)(5)(E)(iv)(I) permits aliens seeking admission to satisfy only up to 90 percent of the job creation requirement with jobs that are estimated to be created indirectly through investment. An employee of the new commercial enterprise or job-creating entity may be considered to hold a job that has been directly created. If the jobs estimated to be created are created by construction activity lasting less than 2 years, Applicants may satisfy only up to 75 percent of the job creation requirement with jobs that are estimated to be created indirectly through investment. INA § 203(b)(5)(E)(iv)(II). If the number of direct jobs estimated to be created has been determined by an economically and statistically valid methodology, and such direct jobs are created by construction activity lasting less than 2 years, the number of such jobs that may be considered direct jobs for purposes of clause (iv) shall be calculated by multiplying the total number of such jobs estimated to be created by the fraction of the 2-year period that the construction activity lasts. INA § 203(b)(5)(E)(v)(II)(cc).

³ An immigrant investor who has invested the required amount of capital in a targeted employment area designated as a high unemployment area during the period in which the area is designated will not be required to increase the amount of investment due to the expiration of the designation.
